End-User License Agreement (EULA)

License

This End-User License Agreement (EULA) is a legal agreement between You ("Customer", either an individual or a single entity) and the Authors of the Opencart Extension CSV Price Pro import/export ("Software"). By installing, copying or otherwise using the software You agree to be bound by the terms of this EULA. This is a license agreement (EULA) and not an agreement for sale.

Permitted Uses and Restrictions

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The Software is licensed, not sold. EXCEPT AS EXPRESSLY AUTHORIZED ABOVE, YOU MAY NOT COPY, IN WHOLE OR IN PART, SOFTWARE OR DOCUMENTATION, MODIFY THE SOFTWARE, REVERSE COMPILE OR REVERSE ASSEMBLE ALL OR ANY PORTION OF THE SOFTWARE, OR RENT, LEASE, DISTRIBUTE, SELL, OR CREATE DERIVATIVE WORKS OF THE SOFTWARE.

Description of rights and limitations

Authors grant You a non-exclusive license to use the Software.

YOU MAY INSTALL A COPY OF THIS SOFTWARE ON ONE WEBSITE ONLY. IF YOU WANT TO INSTALL THIS SOFTWARE ON MORE THAN ONE WEBSITE YOU MUST BUY ONE LICENSE (LICENSE KEY) FOR EACH WEBSITE. You may use this Software for commercial and non-commercial use. Any use for profit or by any business constitutes commercial use. Any use by recognized academic or charitable institutions constitutes non-commercial use.

Limitation of Liability

The Software is provided "as is" without warranty of any kind, either express or implied, including without limitation any implied warranties of condition, uninterrupted use, merchantability, fitness for a particular purpose, or non-infringement.

IN NO EVENT WILL THE AUTHORS OF THIS SOFTWARE BE LIABLE FOR ANY LOST REVENUE, PROFIT, OR DATA, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

In no event shall Authors' liability to You, whether in contract, tort (including negligence), or otherwise, exceed the price paid by You.

Miscellaneous

The license granted herein applies only to the version of the Software available when purchased in connection with the terms of this Agreement. Any previous or subsequent license granted to You for use of the Software shall be governed by the terms and conditions of the agreement entered in connection with purchase of that version of the Software. You agree that you will comply with all applicable laws and regulations with respect to the Software, including without limitation all export and re-export control laws and regulations.

Termination of License

This Agreement shall terminate automatically if you fail to comply with the limitations described in this Agreement. No notice shall be required to effectuate such termination. Upon termination, you must remove and destroy all copies of the Software. For the avoidance of doubt, failure to pay invoices, sharing of license keys between users, and/or reselling of activated license keys will result in termination of this agreement.

OpenCart 3.0.x.x	PHP 7.2.x	magic_footer_oc3_php72.zip

Please note that for the version of PHP 7.0 files from the php56.zip archive are installed

Installing the module

Step 1

Check your hosting settings using the `system_test.php` file, this check will show you the version of PHP installed and the version of OpenCart.

Step 2

Download the correct version of the archive (distribution) in accordance with your version of OpenCart, the latest versions of the module for download are available [here](#).

Be sure to install the latest version of the module at the time of installation!

After you downloaded the module distribution (zip archive) to your computer, unpack the archive file, after unpacking, you will receive four archive files, each of which corresponds to its version of PHP (the version of PHP you specified in the first step), see **Module versions**.

Step 3

From the four archive files obtained in the previous step, select the file that corresponds to your version of PHP, for example if you have PHP5.6, it will be the archive file `magic_footer_oc*_php56.zip`.

Unzip the archive file, go to the `upload /` directory and copy the contents via FTP in the **binary mode (Binary mod)**, to the root directory of your store (web site).

Unlike normal PHP files, ionCube-encoded files may need to be uploaded with your FTP program set to "binary" mode, not "ASCII" or "text" mode. You may need to manually override your FTP program's settings while uploading to do this

If the admin directory is different for you, first, before the copy, rename `upload/admin/` according to the name of your directory `admin/`.

After copying the files to the hosting, go to the OpenCart admin, in the *Extensions - Extensions - Modules*, find the **Magic Footer OC*** in the module list and click to *Install*, then click to *Edit* and enter the license key on the tab "Support".

Step 4

To complete the installation, install the `ocmod/magic_footer_catalog.ocmod.*` file via *Extensions - Extension Installer*, after installation in *Extensions - Modifications* you need to click the *Refresh* button to rebuild your modification cache.

Modifications to install

OpenCart 3.0.x.x	magic_footer_catalog.ocmod.zip
OpenCart 2.3.x.x	magic_footer_catalog_oc23.ocmod.xml
OpenCart 2.2.x.x	magic_footer_catalog_oc22.ocmod.xml
OpenCart 2.0.x.x – 2.1.x.x	magic_footer_catalog_oc20.ocmod.xml

This completes the installation of the module.

Notes

If you have any difficulties with displaying the module, with the changed OpenCart theme, contact the module developer to update the module templates to your OpenCart theme.
